				01-02
Other Disposition			Notified (date)	00-01

Board of Education Policy 5510, Integration Plan – Pupil Assignments, provides parents the opportunity to request deferment from bussing for their children. A deferment may be approved for medical or hardship reasons. The policy relies on the committee to render decisions based upon the information it is provided, and to make such decisions in a manner that is not arbitrary, capricious, or fraudulent.

The committee recognizes that all children who ride buses are subject to certain inconveniences, especially in relation to extra-curricular activities. The committee looks for elements of hardship (such as family trauma, excessive mobility, or logistical issues) or medical conditions that would justify deferment from bussing. The committee has no authority regarding constitutional issues or the rights of individuals to attend certain schools. Parents are advised to refrain from basing deferment requests on these issues.

This form is provided as a convenience in submitting a deferment request. You may write on the back of this page. Additional pages may be attached to this form. You are not required to use this form. However, your request must be made in writing. Please send your request to Deferment Review Committee, Pupil Accounting Department, 201 N Water, Wichita KS 67202. The Pupil Accounting Department is your contact point with the committee. We can provide general information about the deferment process, but we have no authority to reverse or overrule committee decisions. By policy the decisions of the committee are final unless they are in violation of the law, board policy, or administrative implemental procedures.
